Ladies' 6-size Case.

This cut shows a 6-Size Ladies' case. Can be had plain polished, Engine-turned to a shield, or beautifully engraved. It is hunting closed style and pendant set. The movement is a fine 7-jewelled nickel one, of American manufacture, artistically damaskeened, patent safety pinion, and poised balance. An excellent time-keeper.

A16. Above movement, in a solid silver case, $7.

A17. Above movement, in a 5-year gold-filled case, $7.50.

A19. Above movement, in a 14k 20-year gold-filled case, $10.35.

A20. Above movement, in a 10k solid gold case, $18.25.

A21. Above movement, in a 14k solid gold case, $22.50.

A7. We have a very fine American boy's watch, plain, or like cut, with a nickel case, $3.50.

A8. Our special 7-jewelled movement, in a solid silver case, screw back and bezel, 16-size, complete, $5.75.

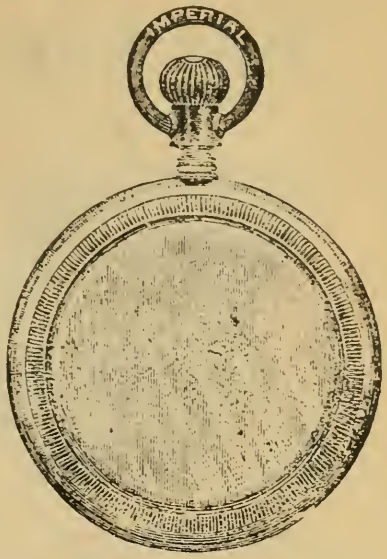
A9. Our special 7-jewel movement, in 10-k gold-filled 15-year case, $9.50.

A10. The same movement as A9, in 14k gold-filled 20-year case, $12.50.

16-Size Open Face.

NOTE.—If a 15-jewel movement is desired, add $1.25 to the above prices.

For a complete assortment of our 16-size watches, see our Fall and Winter Catalogue, No. 39, page 128.



18-Size Open Face.

The above cut shows the size of cases listed below. The nickel, silver, stiffened, and solid silver cases are plain polished, the others can be had engine-turned or engraved. We pride ourselves in sending the latest designs. The movement is a fine nickel movement, of American manufacture, and known as "The Sun Dial." It has the latest improvements, including a patent safety centre pinion, poised balance, is quick train, has 7 jewels, and is beautifully damaskeened, is also stem-wind and set. This is decidedly the latest production in a reliable watch, and the price will tend to make it a rapid seller, consequently, we advise ordering early.

A1. The above-described movement, in a nickel screw back and Bezel case, $4.00.

A2. The above-described movement, in a silver stiffened case, $6.00.

A3. The above-described movement, in a solid silver 3-oz. screw back and Bezel case, $7.40.

A4. The above-described movement, in a gold-filled 5-year case, $7.20.

A5. The above-described movement, in a 10k gold-filled 15-year case, $8.00.

A6. The above-described movement, in a 14k gold-filled 20-year case, $11.60.

For prices and descriptions of higher grade Waltham and Elgin movements and cases, see ur Fall and Winter Catalogue, No. 39.

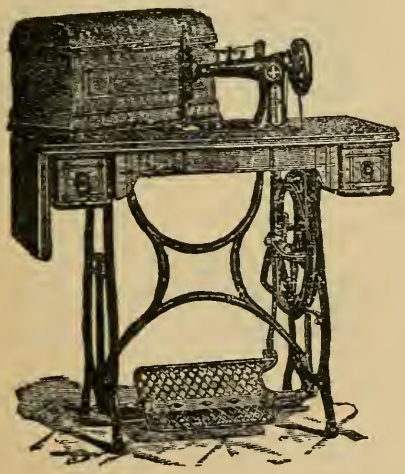
Sewing Machines

This Department has lately been opened in connection with our Furniture Department.

All Machines are guaranteed for a period of five years. The price quoted below, with the above guarantee, speaks for itself. The workmanship is perfect; material the best, and we can confidently recommend them.

We have none of the wasteful expenses which add so much to the prices of other Machines. We can, therefore, afford to sell our Sewing Machines on the same basis of profit that we sell dry goods.



Drop Leaf, 3 Drawers,

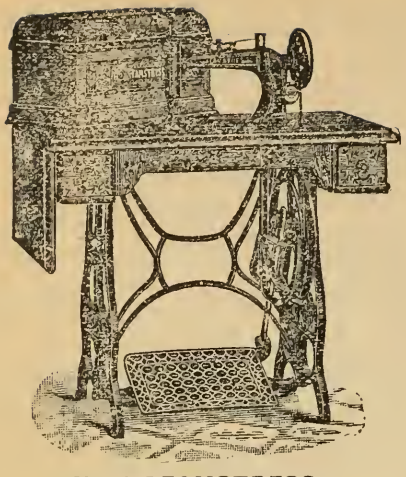
Japanned Metal Stand,

Box Cover, Oak Woodwork,

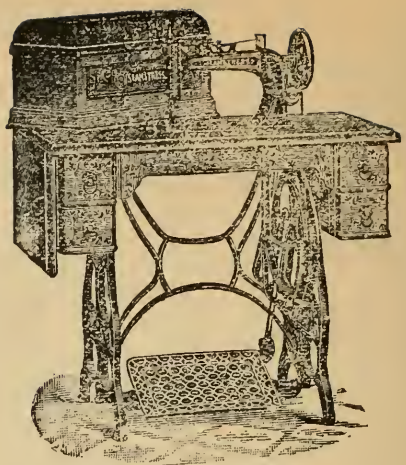
Weight, crated, 100 lbs.

No. 1. THE LEADER, $18.50

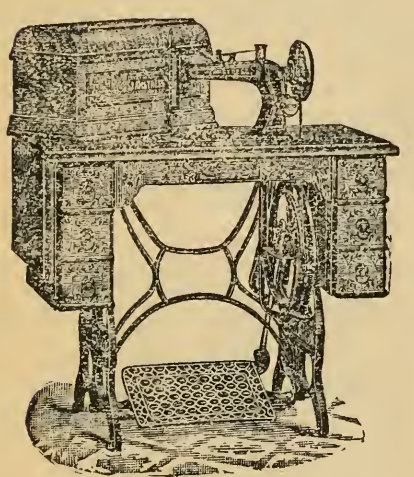
While we guarantee **The Leader Machine** to be superior to any machine sold at anything near the price in Canada, and to be exactly as illustrated, we wish it understood that we advise every purchaser that can to order our **Improved High Arm Seamstress Machines,** as they are in every way superior to the **Leader,** and the difference in price is comparatively small.



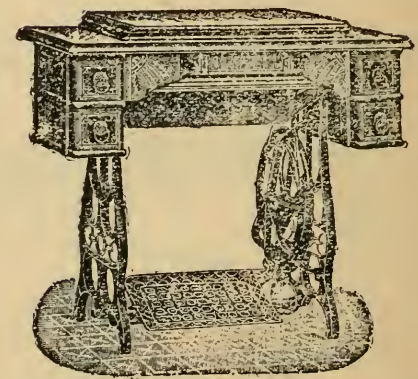
No. 3 SEAMSTRESS
3 Drawers - **$22.50**



No. 4 SEAMSTRESS
5 Drawers - **$24.50**



No. 5 SEAMSTRESS
7 Drawers - **$26.50**



No. 4 DROP HEAD or
CABINET TABLE SEAMSTRESS, **$29.50**

The above cuts are exact representations of our *Seamstress High Arm Sewing Machine.* The cabinet work is of the highest grade, extra well finished, made of solid oak. Bent wood work. Highly polished. Up to date in every detail. Weight, crated, 125 lbs.

SPECIAL FEATURES.

High Running. Durable. Easily Operated. Noiseless. Double Feed.
High Arm. Self-Threading Shuttle. Self-Setting Needles.
Self-Adjusting Working Parts. Automatic Bobbin Winder.
No Springs—Every movement Positive. Hardened Steel Bearings.
Rotary Shaft Movements. All Steel Attachments.

The Drop Head Case Machine is a very popular style. It is compact, simple in construction and easily handled. When machine is ready for use, the head is in the same position as on the ordinary style. When through using, it requires only one motion of the hand to drop the head down through the table completely out of sight. The machine head and attachments are the same as used on the SEAMSTRESS.

Personal instructions are not necessary. A little study of our Illustrated Instruction Book, which is supplied with each machine, will enable the most inexperienced to operate a machine successfully.

DESCRIPTION

OF THE

New High Arm "Seamstress" Sewing Machine.

The *"Seamstress"* illustrated herein is a strictly high grade sewing machine, finished throughout in the best manner possible. It possesses all modern improvements and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, durability, and making it almost impossible for the machine to be gotten out of order.

It makes what is known as the double lock stitch, and uses two threads, which are locked together in the centre of the goods, forming a stitch which appears the same on both sides. The upper thread is drawn into position directly from the spool without passing through any holes till the eye of the needle is reached. A detailed description of the machine is as follows :

THE HEAD is handsome and pleasing in appearance, being beautifully decorated in an elaborate design worked out in gold and bright colors. All of the working parts, screws, plates, etc., are highly polished and nickel plated. The bed plate is let into the wooden table so that the surfaces of both are flush, thus greatly improving the looks of the machine, as well as facilitating the handling of the work when sewing.

THE ARM is large, very strong and well proportioned, and the clear space underneath it is 5½ by 9 inches, thus allowing the bulkiest work to be stitched and handled with ease.

THE NEEDLE is straight, has a large shank, and it is impossible to set it wrongly or for it to become fast in the bar so that it cannot be readily removed, as it is held with the latest style patent needle clamp.

THE NEEDLE BAR is round, made of hardened steel, and finely finished. It runs in hardened steel bushings, packed above and below with felt, which absorbs oil enough to lubricate the part without any danger of its running down and soiling the work.

THE TAKE UP is absolutely automatic in its action at all times and on all kinds of work.

THE AUTOMATIC BOBBIN WINDER attached to this machine is a great improvement, and with it the bobbin can be wound almost as evenly as a spool of thread, and with no care on the part of the operator except to keep the treadle moving.

THE TENSION LIBERATOR is of a new design, and enables the operator to remove the work from the machine without danger of breaking or bending the needle.

THE BEARINGS and WORKING PARTS are all hardened, carefully ground and fitted, and when kept clean and properly oiled will last a life-time.

THE HAND WHEEL is of the latest pattern and is also adjustable, so that it can be made tight or loose at will, thus enabling the operator to wind the bobbin without running the machine.

THE FEED is double, extending on both sides of the needle, is positive in its action and handles the heaviest work easily. The term "positive feed" is often used in describing other machines, but in nearly all of them it will be found that a spring is required to hold the feed bar to its bearing. The Seamstress feed motion (patented October 20th, 1891,) is free from this defect. It is so constructed that it can be raised or lowered by a simple adjustment without interfering with the feed dog. This advantage will be appreciated by all sewing machine dealers, as the old way of adjusting by set screws holding the feed dog on the feed bar has always made trouble, because, unless it was accurately done the feed dog would either strike the front or back of the needle plate, or the feed would be out of level. By the improved construction, as made by us, there is no danger of meeting with any of these difficulties. By unloosening the set screw which connects the feed push rod with the cam, and sliding it to the right or left, the feed can be adjusted as to height without displacing any of the other parts, and the feed itself will always remain perfectly level.

THE SHUTTLE is positively self-threading, of large size, cylindrical in shape, and made of the finest steel carefully hardened and beautifully polished.

THE SHUTTLE CARRIER is of a new design, and is fitted with a spring lining which balances the shuttle and does away with the noisy clicking so noticeable in other machines.

THE STAND is light and graceful, yet so proportioned as to give it great strength. It is easily kept clean and free from dust, and is furnished with oil cups to prevent soiling the floor on which it rests. The treadle and drive wheel are hung on adjustable steel centres.

THE ATTACHMENTS supplied without extra charge are of the latest design, interchangeable, and constructed to slip on the presser bar. They are made throughout of the best steel, polished and nickel plated, and there is not a particle of brass or other soft metal or a single soldered joint about them. They consist of Ruffler, Tucker, Binder, Braider Foot, Under Braider Slide Plate, Shirring Side Plate, Four Hemmers of assorted widths, Quilter, Thread Cutter, Foot Hemmer and Feller.

THE ACCESSORIES include twelve Needles, six Bobbins, Oil Can filled with oil, large and small Screw Drivers, Sewing Guide, Guide Screw, Certificate of Warranty good for five years, and elaborately illustrated Instruction Book.
